DETAILED ACTION

This is response to Applicant's amendment filed 11-06-2007. Claims 1-8, 5-22 and 25-30 are pending. Claims 9-14 and 23-24 have been canceled.

Allowable Subject Matter

Claims 1-8, 15-22 and 25-30 are allowed over the prior art made of record.

Applicant's particular the limitations directed at the "second processor which executes a garbage collection, frees a portion of unused memory, and the garbage collector of the second processor triggers the value of counter for memory consumption" and with respect to the context to the claims and the specification in combination with the other limitations of the claims, was not disclosed by, would not have been obvious over, nor would have been fairly suggested by the prior art of record, in context to the claims and the specification.

The closest prior art of Chin and Levitt does not expressly disclose the claimed invention of a second processor which executes a garbage collection, frees a portion of unused memory, and the garbage collector of the second processor triggers the value of counter for memory consumption in context to the claims and the specification.

The dependent claims, being further limiting to the independent claims, definite and enabled by the Specification are also allowed. The closest prior art fails to anticipate or render Applicant's limitations above obvious.

Other Prior Art Made of Record

The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure. U.S. patents and U.S. patent application publications will not be supplied with Office actions. Examiners advises the Applicant that the cited U.S. patents and patent application
